

Step 6: Project Details for Traceability Equipment (FSEQ-PD-D)

1. Which commodities will be impacted by the proposed project? (Check all that apply)

Ready-to-eat lettuce and leafy greens eaten raw (e.g. arugula, spinach, baby salad greens, other mixed lettuces)

Broad-leaf herbs (e.g. basil, cilantro, parsley)

Green onions, tomatoes

Greens which could be eaten raw (e.g. radicchio, dandelion greens, endive, mustard greens)

Rough-skinned berries (e.g. raspberries, strawberries, blackberries)

Dairy (e.g. sheep, water buffalo, mare, etc.)

Seeds for sprouting

Other, specify: _____

2. Have you conducted a mock recall for the commodities impacted by your project?

Yes

No

3. What is your current recall capability? (Select one)

100% of the product can be recalled

Only a portion of the product can be recalled (less than 100%)

We currently have no recall capabilities and/or have not conducted a mock recall

4. What kind of traceability system is currently in place? (Select one)

Paper-based

Combination of paper and electronic

Fully electronic/automated

No formal traceability system

Full Name: _____

FBRN: _____

FSEQ-PD-D

5. What activities will the proposed project facilitate? (Check all that apply)

Completion of a mock recall

Improving current recall capabilities

Verification of production attributes; specify what attributes: _____

Inventory management

Sharing of information with clearly identified supply chain partners

Strengthen current information sharing capability with clearly identified supply chain partners

6. What are the objectives of the project related to market opportunities and competitiveness?
(Check all that apply)

Implementation is essential for retaining share in the current market and meeting market requirements, explain:

Implementation will enable access to new markets, explain:

Implementation will help achieve a competitive advantage, explain:

Full Name: _____ **FBRN:** _____
